The existing instructions provide that rest  
shelters should be provided at important stations where  
the number of porters is substantial.

2. Ministry of Railways desire that resting facilities  
for the licensed porters at large stations should be  
reviewed, and wherever these are inadequate, the same  
should be provided/augmented.

3. The rest shelters should also be properly maintained  
in proper condition. This must be specially ensured and  
inspected by DRMs and other divisional officers.

4. Please advise the names of the stations where the  
rest shelters have already been provided, and also whether  
any new shelter has been included in the works programme.

Please acknowledge receipt of this letter.
